WHO WE ARE

GULFMEC is Qatar based innovative steel fabrication company offering value engineering, design, drafting, project management, fabrication and installation of steel work projects across multiple sectors like construction industry, petrochemical and marine industries etc.

More than just a metal fabricator, GULFMEC has the expertise and resources to take on multiple projects and scopes simultaneously. Our extensive experience in large-scale modularization combines innovative engineering with unmatched commitment to project success.

Our focus is total client satisfaction, achieved through a partnering approach to ensure our contracts are completed on time, within budget and to an outstanding level of quality. Laying great emphasis on company values such as quality, service and customer satisfaction, GM is continually striving to develop solution that both match and exceed client expectation.

ACTIVITIES & SERVICES

From Scratch, our expert consultants and Professional team is ready to serve our client with,

- Design & Engineering
- Preparation of detailed drawing & work procedures
- Fabrication / Machining
- Non-destructive weld tests
- Installation / Erection
- Complete QA/QC documentation
- Maintenance and Servicing
- Surface finishing processes like Blasting, Painting, Hot dip galvanizing, Powder coating etc.

STRUCTURAL STEEL TRADING

“No matter what you require, our team can make your expectations a reality !!!”

STRUCTURAL STEEL FABRICATION AND INSTALLATION

GULFMEC can take care of all type of your fabrication and installation needs in **Mild Steel, GI, Stainless Steel and Aluminum materials**. By combining cutting-edge expertise, vast field experience and high quality workmanship we deliver exceptional solutions to major projects nationwide.

We can fabricate and deliver a wide range of customized items in compliance to quality systems with full traceability to specification. Also we can provide all industry standard finishes including paint systems, powder coating and hot dip galvanizing.

Keeping in mind the precise demands of clients, we offer a wide range of **Structural Erection Service**. Our services are widely recommended by clients owing to our punctuality, versatility, reliability and client centric approach.

GULFMEC's site installation teams are some of the most experienced and capable in the industry. Safe and efficient steel installation is one of the utmost importances to our highly qualified site operatives.

Our specialist skill include working on large and small scale structures, high level finish architectural steel works and working on difficult refurbishment projects with tight tolerance.

STEEL STRUCTURES

- STRUCTURAL STEEL BUILDINGS
- PRIMARY & SECONDARY STRUCTURAL STEEL WORK
- COMPLEX STRUCTURES
- BRIDGES & CANOPIES etc

ARCHITECTURAL METAL WORK

- LADDERS
- HANDRAILS AND BALUSTRADES
- STAIRWAYS
- FENCES & GATES
- PLATE WORKS
- INDUSTRIAL PLATFORMS
- TRENCH COVERS AND GRATINGS
- BOLLARDS etc

TEMPORARY STRUCTURES / SITE MOBILIZATION WORKS

- MULTIPURPOSE SHEDS (WORKSHOP, STORE, MESS HALL etc)
- CAR PARKING SHEDS
- PORTABLE CABINS FOR OFFICES / ABLUTION UNITS / TOILETS
- FENCE / HOARDINGS / GATE BARRIERS
- SIGN BOARDS
- STEEL TANKS (WATER TANK/SEPTIC TANK/DEWATERING TANK)
- WATER TANK TOWERS
- WASTE SKIP BUCKETS / MAN BASKET
- CONCRETE SHUTTERS / MOLDS
- CABLE TRAYS

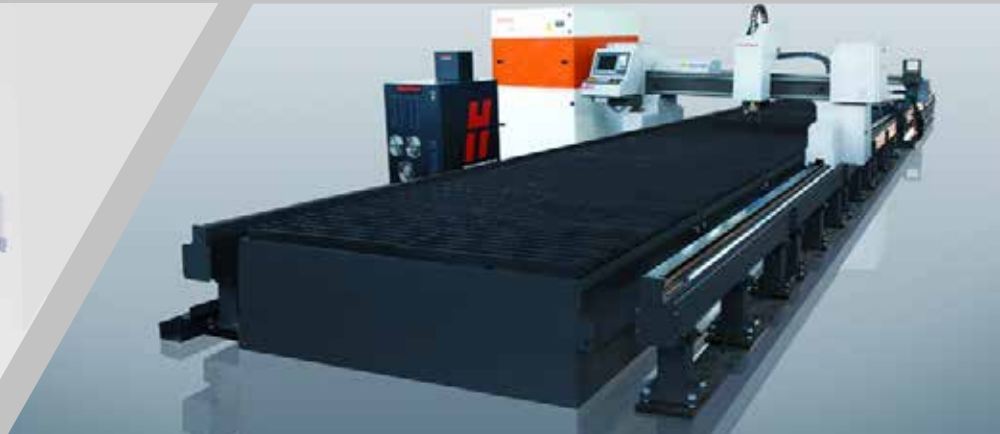

STEEL PROCESSING /MACHINING SERVICES

Delivering quality on precise and complex projects can only be achieved with the application of the latest equipment and technologies, combined with a highly experienced and skilled workforce.

Our Processing services include:

- LASER CUTTING
- WATER JET CUTTING
- PLASMA CUTTING
- SHEARING
- BENDING
- ROLLING
- TURNING
- PUNCHING
- DRILLING etc

MECHANICAL & PIPING WORKS

We aim to provide specialist products and service repair solutions, not only to the Water, Oil, Gas and Petro-Chemical sectors, but additionally across a broad spectrum of other Plant and Piping Industries. Our team has extensive experience in design, fabrication and installation of all types of mechanical pipe work including Carbon steel, Stainless steel and Copper etc.

Our workshop facility has the capability of manufacturing prefabricated pipe work, custom or tailored components, and brackets and hangers to reduce costs and lengthy system down time.

We offer a range of pipe services including,

- Complete Commercial and Industrial mechanical installations
- Piping Fabrication including Skid Modular Units
- Large and Small Bore Pipe Prefabrications and Installations
- Steam and Thermal fluid Piping and Boiler Installations
- Stainless Steel Piping and Tubing and Food-grade Sanitary Piping
- Natural Gas and Propane Piping and Installations
- Medical Gas Piping and Process Gas Installations
- Hydraulic & Pneumatic piping and controls
- HVAC
- Chilled Water Pipework (CHW)
- Condenser Water Pipework (CCW)
- Refrigeration
- Process Piping & Pipe Insulation etc.

MARINE, INDUSTRIAL AND PLANT SHUT DOWN PROJECTS

With a wealth of expertise, experience and resources, GULFMEC offers repair, maintenance, refurbishment, plant shutdown, fabrication, new building and engineering solutions to a wide customer base of marine and industrial clients.

Our diverse capabilities enable us to provide a single solution for industrial maintenance such as plant shutdowns, ensuring our clients maximize their output.

What We Do:

- Fabrication, welding works, modifications and maintenance at Marine and Industrial plant facilities
- Piping Installation / Modifications
- Plant Maintenance & Modifications
- Outages, Shutdowns, & Turnarounds
- General and Specialty Structural steel Services etc

We specialize in servicing the following major industries:

- Refining and petrochemicals
- Chemicals
- Oil and gas
- Power generation
- Marine
- Pulp and paper,
- Mining and minerals
- Manufacturing
- Water/Wastewater
- Processing Plants
- Desalination Plants

PROJECT SUPPORT SERVICES

GULFMEC provides project-based multi-disciplined manpower and workforce solutions to diverse industrial sectors. With increasing complexity in today's industry and specific demand changing from project to project, it is of the utmost importance to work with specialized professionals. Hiring GULFMEC manpower services ensure that each task in your project is executed by the adequately qualified and certified workforce.

All our manpower is strictly adhere to all the industry codes of safety and quality standards. Our team comprises of highly skilled,

- **Engineers**
- **Supervisors**
- **Pipe Fitters**
- **Welders**
- **Structural Fabricators**
- **Instrument Technician**

who can expertly streamline even the most complex project from concept to delivery.

STEEL TRADING

A vast range of stock steel products are ready for fast delivery in **Mild steel, GI, Stainless Steel, Aluminum etc.**

Our steel products include:

- BEAMS
- COLUMNS
- CHANNELS
- ANGLES
- PLATE
- FLAT BARS
- ROUND BARS
- SQUARE BARS
- SQUARE HOLLOW SECTION TUBES
- RECTANGULAR HOLLOW SECTION TUBES
- CIRCULAR HOLLOW SECTION PIPES
- CHEQUERED PLATES
- CORRUGATED SHEETS
- DECKING SHEETS
- SANDWICH PANELS
- FASTENERS
